- UNITRONIC LIHCH

Asia's most visible "Iconic Visitor Attraction" is expected to be completed in March 2008.

Halogen-free cable for the world's largest observation wheel

J-Lapp Cable in Singapore last year supplied a wide range of cable for Singapore Flyer, the world's largest observation wheel.

The halogen-free cable from JJ-Lapp Cable's Olflex and Unitronic range is for the internal wiring of the 28 capsules of the giant wheel.

The Singapore Flyer, expected to be completed in Mar 2008, will be one of the world's largest man-made moving land objects at a height of 178m (equivalent to a 45-storey building) and a diameter of 150m sitting astride a 20m high three-storey terminal building. ● — *By Richard Ng, Singapore*
